

MEBA
sawing solutions.

MEBASwing

The smart choice for all purpose band-sawing

Machine Data Sheet

MEBASwing | 280 | 350

- Semi-Automatic straight cutting bandsaw machine.
- Wire brush synchronize with blade for best performance.
- Infeed indexing of material with hand operated roller.
- Effective flood coolant flow.
- Adjustable semi hydraulic material clamping.
- Easy to operate control panel.
- Step-less cutting pressure regulation through weight of heavy and rigid saw frame and the fine tuning depending on cross section by hydraulic system.
- Material length stopper.
- Work light
- Combined precision saw blade carbide guides with roller bearing.
- Specially designed gearbox for high lateral pressure.

Technical Data

280	
Type	Semi-automatic
90°	Ø 280 300 x 250 mm
Motor	2,2 kW
Saw blade	3505x34x1,1 mm
Saw blade speed	25/40/55/70 m/min.
Length of remaining piece	Manual: 50 mm
Shortest Ø	10 mm
Dimensions (LxWxH)	1800x1150x1300 mm
Working height	630 mm
Weight	700 kg

350	
Type	Semi-automatic
90°	Ø 350 350 x 300 mm
Motor	3,0 kW
Saw blade	4115x34x1,1 mm
Saw blade speed	15 - 80 m/min.
Length of remaining piece	Manual: 50 mm
Shortest Ø	10 mm
Dimensions (LxWxH)	2050x1150x1450 mm
Working height	640 mm
Weight	980 kg

Standard equipment

- User-friendly control panel
- Rigid Construction
- Mechanically Adjustable Strong hydraulic work piece clamping
- Synchronize Chip brush
- Step-less cutting pressure regulation through weight of heavy and rigid saw frame and the find tuning depending on cross section by hydraulic system
- Material end stopper
- Combined precise saw blade carbide-roller guidance
- Compliance to DIN ISO 2768 / IS 2102
- Saw blade tension manual
- Material movement mechanically by roller
- Movable saw blade guide for adjustable according to material width.
- Coolant equipment with electro pump
- Work Light
- Colour silver-grey
- 1,00 ST Tool Kit
- 1,00 ST Instruction manual and spare parts list

Additional standard equipment 350

- Variable frequency drive.
- Hydraulic saw blade tension
- Infeed roller table, Manual
- Laser light for online marking

Further MEBA products like saw blades, circular saw machines, mist oil, material stock rollers and measuring devices are also available.
